

AL-5001-MPC-HD212XIRDKLPRH

# 2MP 12X MOTORIZED LPR BULLET NETWORK CAMERA (120FPS)

Ultra Super WDR 140dB, IR Distance 50m

ALCON

#### **OVERVIEW**

## Alcon Smart Full HD Motorized 12x Starlight Bullet Camera

The Alcon AL-5001-MPC-HD212XIRDKLPRH Camera with Starlight Low Light Technology, Ultra Super WDR (140db) and H.265+ Video Compression with Dual ICR is, in true sense of an Ultra Smart IP Camera that provides high resolution images for round-the-clock surveillance over IP networks. It supports H.265+/H.264, MPEG-4, and JPEG compression formats and delivers excellent picture quality in 2.0MP resolutions. It is also equipped with a mounting bracket that conceals all cables within for easy management and waterproofing. Furthermore, the IP67-rated housing protects against rain and dust and ensures stable operation under extreme weather conditions. IR-Cut filter & built-in IR illuminators enables the camera to provide color (0.002Lux) video in low light condition and black/white clear video in extreme dark conditions. The inbuilt white light LED enables to scare off offenders from the scene. It supports flexible power supply options of either Power-Over-Ethernet or adapter power. It is an ideal solution for outdoor and indoor surveillance applications such as buildings, roads, parking areas, garages, railway stations and airports etc.

#### **FEATURES**

- 2MP, Starlight 0.002lux
- Motorized 5.3~64mm, 12x Optical Zoom
- Support Max. Vehicle Speed 120km/h
- 1080P, 1920x1080@120fps
- H.265+/H.265(HEVC)/H.264+/H.264/MJPEG
- Ultra Super WDR 140dB, IR Distance 50m
- Micro SD Card Support Up to 256GB
- Privacy Masking, BLC, HLC, 2D DNR, 3D DNR, ROI, Defog, AWB, EIS, IP Address Filtering, AGC, Anti-flicker, Corridor Mode, Deblur
- Up to IP67-rated for weather-resistant performance
- Vandal-proof IK10-rated metal housing
- SIP/VoIP Support
- NAS(Support NFS, SMB/CIFS)

## LATEST COMPRESSION H.265+ TECHNOLOGY

ALCON cameras and NVRS are coming with H.265+ can save approximate 70% bitrate than H.264 technology 100:30....70% less storage another new gen technology circuit making it extremely durable and best suitable for Industrial type installations.

S+265 can save approximate 50% bitrate than H.265 technology, saves 70%-80% bandwidth compared with H.264

#### **AUTO FOCUS**

Alcon autofocus Camera is an ideal choice for surveillance and monitoring when the field of view encompasses large differences in distances of the target or the target is moving and often changes its distance to the camera. Alcon autofocus Camera lenses are zoom lenses; a variation of this type of lens is a vari-focal lens which can vary its focal length by manual adjustment and can zoom upto 12x Remotely.

#### STARLIGHT TECHNOLOGY

ALCON starlight 0.002Lux (Starlight) series is most advance product with low light scenario with Cristal clear and color picture on Night.

## **ULTRA SUPER WDR (140dB)**

Commonly used Digital WDR (D-WDR), which is a software-based technique to enhance image by adjusting the gamma value to enhance dark areas is responsible for image deterioration (i.e. the image being washed out). Alcon sensorbased WDR technology allows the camera to record greater scene details with true color

reproduction even under the extreme back light and high contrast conditions. The ratio that the brightest light signal values divided by the darkest light signal values is up to 140dB.

#### TRIPLE STREAMING

The Alcon all Camera Series supports 3 simultaneous streams. Stream 1 for Local Recording and Viewing at full resolution, stream 2 for Remote viewing and recording over the internet and stream 3 for special applications, Smart Phones and hand held devices. Keeping in mind the growing trend of video analytics and Smart Phone applications, this feature enhances analytics and mobile viewing experience over conventional IP Camera having Dual Stream only.

#### **PRIVACY MASKING**

Privacy masking is a feature found in many IP cameras which is used to protect personal privacy by concealing parts of the image from view with a masked area. Examples of this use would be masking windows of domestic properties

#### **HIGH LIGHT CONTROL**

Alcon HLC function is designed to allow camera capture vehicle plate license. HLC stands for Hight-light compensation, this technology is designed to optimize the brightness of images through using digital signal processing.

#### **REGION OF INTEREST**

A region of interest is a specified part of a Alcon CCTV camera view that is highlighted and broadcast to a separate stream from a camera.

## **SMART DEFOG**

Alcon's Smart Defog image correction algorithm, improves the whole images visibility and clarity even in very foggy weather.

#### **120FPS**

Alcon Super Starlight Camera offers super high frame rate up to 1920x1080@120fps resolution which is double the number of frames offered by conventional HD network cameras. This technology enables the camera to capture stable and latency free clear images on fast moving objects.

#### **DIGITAL NOISE REDUCTION**

Digital Noise Reduction (DNR) is a method by which the camera's imager digitally removes noise from the image. 3D DNR is an advancement of this technology which enables noise to be filtered even more effectively from the image, even in low light conditions.

## **ANPR SOLUTION (LPR CAMERAS)**

(Automatic number-plate recognition) can be used to store the images captured by the cameras as well as the text format of license plate with a photograph of the driver. Alcon provides 99-100% accuracy on standard license plate as per RTO. Alcon ANPR systems commonly use to allow the camera to take the picture at any time of day and night. Alcon providing single dashboard solution of ANPR with Speed violation, Face Detection and RLVD (Red Light Violation detection).
