Alcon 8MP Advanced Starlight IR Bullet Camera

Alcon Smart 8 MP Motorized Varifocal Starlight Bullet Camera

The Alcon AL-5001-MPC-HD8MVDK Camera with Starlight Low Light Technology, Super WDR and S+265 Video Compression with Dual ICR is, in true sense of an Ultra Smart IP Camera that provides high resolution images for round-the-clock surveillance over IP networks. It supports S+265/H.265/H.264, MPEG-4, and JPEG ompression formats and delivers excellent picture quality in 8MP resolutions. It is also equipped with a mounting bracket that conceals all cables within for easy management and waterproofing. Furthermore, the IP67-rated housing protects against rain and dust and ensures stable operation under extreme weather conditions. IR-Cut filter & built-in IR illuminators enables the camera to provide color (0.001Lux) video in low light condition and black/white clear video in extreme dark conditions. The inbuilt white light LED enables to scare off offenders from the scene. It supports flexible power supply options of either Power-Over-Ethernet or adapter power. It is an ideal solution for outdoor and indoor surveillance applications such as buildings, roads, parking areas, garages, railway stations and airports etc.

LATEST COMPRESSION H.265+ TECHNOLOGY

ALCON cameras and NVRS are coming with S+265 can save approximate 80% bitrate than H.264 technology 100:20….80% less storage another new gen technology circuit making it extremely durable and best suitable for Industrial type installations.

S+265 save approximate 80% bitrate than H.265 technology, saves 70%-80% bandwidth compared with H.264

TRIPWIRE AND PERIMETER

Alcon autofocus Camera is an ideal choice for surveillance and monitoring when the field of view encompasses large differences in distances of the target or the target is moving and often changes its distance to the camera. Alcon autofocus Camera lenses are zoom lenses; a variation of this type of lens is a vari-focal lens which can vary its focal length by manual adjustment and can zoom upto 4X Remotely.

STARLIGHT TECHNOLOGY

ALCON starlight 0.001Lux (DARK KNIGHT) series is most advanceproduct with low light scenario with Cristal clear and color picture on Night

SUPER WDR (120dB)

Commonly used Digital WDR (D-WDR), which is a software-based technique to enhance image by adjusting the gamma value to enhance dark areas is responsible for image deterioration (i.e. the image being washed out). Alcon sensor-based WDR technology allows the camera to record greater scene details with true color reproduction even under the extreme back light and high contrast conditions. The ratio that the brightest light signal values divided by the darkest light signal values is up to 120dB.

ANR FEATURES

NVRs (Network Video Recorders) with the ANR (Automatic Network Replenishment) function can automatically store video data on the IPC (Internet Protocol Camera) storage card when the network is disconnected. After recovery of the network, the NVR automatically retrieves the video data stored on the camera.
TRIPLE STREAMING

The Alcon all Camera Series supports 3 simultaneous streams.Stream 1 for Local Recording and Viewing at full resolution, stream 2 for Remote viewing and recording over the internet and stream 3 for special applications, Smart Phones and hand held devices. Keeping in mind the growing trend of video analytics and Smart Phone applications, this feature enhances analytics and mobile viewing experience over conventional IP Camera having Dual Stream only

ELECTROMAGNETIC PROTECTION

The Camera also comes with Lightning, surge and voltage transient protection This standard protects the camera from lightning & over power.

HIGH LIGHT CONTROL

Alcon HLC function is designed to allow camera capture vehicle plate license. HLC stands for Hight-light compensation, this technology is esigned to optimize the brightness of images through using digital signal processing.
