OVERVIEW

The Alcon AL-5003-MPC-HD463XIRATUDK-NXG PTZ camera with auto tracking pan, tilt and zoom function, S+265 video compression with super Starlight (0.001Lux) Low light Technology and Long range Array IR LED Illuminator provides high-resolution images for round-the-clock surveillance over IP networks. It supports S+265, H.265, MPEG-4, and JPEG compression formats and delivers excellent picture quality in 4MP resolutions. It is also equipped with 5.7-359mm with 63x Optical Zoom Lens which enables surveillance of far objects with detail. Furthermore, the IP66,(metal body)-rated housing protects against rain and dust and ensures stable operation under extreme weather conditions. IR-Cut filter and built-in Long Range Array IR LED illuminators with smart IR enable the camera to provide color video when there is a minimum light source, and black/white clear video in dark conditions up to 500 meters. It is an ideal solution for outdoor surveillance applications such as buildings, roads, parking areas, railway stations, airports, steel and power

LATEST COMPRESSION S+265 TECHNOLOGY

ALCON cameras and NVRS are coming with S+265 technology the compression ratio with H.264 technology 100:10....90% less storage another new gen technology circuit making it extremely durable and best suitable for Industrial type installations.

ULTRA SUPER WDR (120dB)

Commonly used Digital WDR (D-WDR), which is a software-based technique to enhance image by adjusting the gamma value to enhance dark areas is responsible for image deterioration (i.e. the image being washed out). Alcon sensor-based WDR technology allows the camera to record greater scene details with true color reproduction even under the extreme back light and high contrast conditions. The ratio that the brightest light signal values divided by the darkest light signal values is up to 120dB.

TRIPLE STREAMING

The Alcon Premium series Camera Series supports 3 simultaneous streams. Stream 1 for Local Recording and Viewing at full resolution, stream 2 for Remote viewing and recording over the internet and stream 3 for special applications, Smart Phones and hand held devices. Keeping in mind the growing trend of video analytics and Smart Phone applications, this feature enhances analytics and mobile viewing experience over conventional IP Camera having Dual Stream only.

STARLIGHT TECHNOLOGY

ALCON starlight 0.001Lux (DARK KNIGHT) series is most advance product with low light scenario with Cristal clear and color picture on Night

SMART ZOOMING

The Alcon AL-5003-MPC-HD463XIRATUDK-NXG Smart Project IP PTZ Camera is equipped with 63X optical Zoom Lens through you can view far objects with minute details. It also come with 16X digital Zoom feature.

SMART DEFOG

Alcon's Smart Defog image correction algorithm, improves the whole images visibility and clarity even in very foggy weather.

ANR

Alcon of their IP cameras fitted with on-board MicroSD storage now come with a feature called Automatic Network Recovery – or ANR – as standard. When activated, this tells the camera to start recording footage to the memory card as soon as it loses its connection to the recorder.

HIGH LIGHT CONTROL

Alcon HLC function is designed to allow camera capture vehicle plate license. HLC stands for Hight-light compensation, this technology is designed to optimize the brightness of images through using digital signal processing.

PRIVACY MASKING

Privacy masking is a feature found in many IP cameras which is used to protect personal privacy by concealing parts of the image from view with a masked area. Examples of this use would be masking windows of domestic properties
